

# What is SECR?

Streamlined Energy Carbon Reporting is a mandatory scheme in the UK which replaced the carbon reduction commitment scheme.

## Who is required to report?

SECR will affect all UK incorporated quoted and large unquoted companies and limited liability partnerships.

Large companies are defined as those that meet two or more of the following criteria:

Over **250** employees

Annual turnover **greater than £36m** and an annual balance sheet **greater than £18m**

## What is reported?

Large UK incorporated unquoted companies & LLPs:

- Energy consumption and emissions arising from UK electricity, gas and transport
- Describe actions taken to increase energy efficiency.

UK incorporated quoted companies:

- As above, plus all onsite emissions in the UK and overseas.

## Potential penalties

Fines up to **£15000**

Company struck off the register

## What can Inenco do?

Ensure Compliance

Build your energy & Carbon Strategy

Turn compliance into opportunity

Cost effective when combined with ESOS
